Intred S.p.A. joins the Intermonte Valore Italia Index

Brescia, 2 July 2026 – Intred S.p.A., a leading telecommunications operator in Lombardy, is proud to announce that it has been selected among the one hundred companies listed on Borsa Italiana that make up the Intermonte Valore Italia Index, dedicated to SMEs with a capitalisation of less than one billion euro that do not belong to the FTSE MIB.

The Index was created to enhance the universe of listed Italian small and medium-sized enterprises, creating a meeting point between entrepreneurship, capital markets and the Italian economic system. It is a true cross-section of the best expertise of the Italian economy, helping to broaden and diversify investment opportunities compared with traditional indices, for both domestic and international investors.

Companies are selected on the basis of rigorous technical and financial criteria, designed to ensure adequate levels of liquidity, transparency and investability, including: minimum free float, sound governance standards, analyst coverage, financial sustainability and level of indebtedness, as well as representativeness within the Index itself.

The Index is part of PMI2Change, Banca Generali's innovative project presented on 1 July 2026 at Borsa Italiana's Palazzo Mezzanotte, which aims to support the growth and competitiveness of Italian entrepreneurs by fostering the development of listed national SMEs. The project addresses the problem of the limited liquidity and valuation of listed SMEs, helping to create the best conditions for a more efficient match between capital and businesses.

The initiative builds on the expertise of Intermonte, a leading Italian operator in the sector with over thirty years of experience in the financial markets – in particular in SME research, sales & trading, market making and investment banking – and part of the Banca Generali Group since the beginning of 2025.

Building on the Index, Banca Generali, together with Investlinx and Intermonte, has presented a new actively managed, PIR-compliant ETF that will invest mainly in the universe defined by the Index itself. Banca Generali has committed to supporting the launch of the instrument with initial inflows of 100 million euro in the first months, with exposure growing gradually to reach 500 million euro in the medium term. The initiative is therefore estimated to generate new investment flows of 1-2 million euro per day, representing over 5% of the Index's free float.

Daniele Peli, Chief Executive Officer of Intred, commented: *"Intred's inclusion in the Intermonte Valore Italia Index is an important recognition of the growth path we have built over the years, founded on solidity, transparency and long-term value creation. Being selected among the companies that best represent the excellence of listed Italian SMEs strengthens our visibility with the financial community and investors, confirming the validity of our business model. We will continue to invest in the development of our*

infrastructure, in innovation and in the quality of our services, with the aim of generating sustainable value for all our stakeholders".
