Statement
Intred S.p.A. is committed to making its website accessible, in accordance with the Law of 9 January 2004, No. 4. This accessibility statement applies to:
https://www.intred.it/

Compliance status:
Partially compliant
This website is partially compliant with the requirements of Appendix A of the UNI CEI EN 301549 standard, due to the cases of non-compliance listed below.

Inaccessible content
The content listed below is not accessible for the following reasons of non-compliance with the Law of 9 January 2004, No. 4:

- **C.9.1.4.3** – The visual presentation of text and images of text does not always have the minimum contrast ratio required (4.5:1 for normal text, 3:1 for large text), except for the exceptions provided for by the regulations (e.g. logotypes). The most critical colour combinations involve the brand colours (#df3faf, #dc3eb2) on light backgrounds and shades of grey on a white background;
- **C.9.1.1.1** – Not all images presented to the user have a text alternative describing their function or content (alt attribute missing or empty);
- **C.9.2.4.4 / C.9.4.1.2** – Some links do not have accessible text recognisable by assistive technologies, in particular icon-only links without an aria-label or equivalent text;
- **C.9.4.1.2** – In some cases, user interface components (buttons, ARIA interactive elements, input fields) do not have a correct accessible name provided by visible text, aria-label or aria-labelledby, preventing assistive technologies from identifying their function;
- **C.9.4.1.2** – A non-permitted ARIA attribute was detected on an element, and some interactive controls are nested, causing potential focus problems for assistive technologies;
- **C.9.2.1.1** – Some areas with scrollable content cannot be reached and operated via keyboard navigation;
- **C.9.1.3.5** – The autocomplete attribute is not correctly configured on some form input fields;
- **C.9.4.1.2** – An iframe element does not have a title attribute or an accessible name recognisable by assistive technologies.

Preparation of the accessibility statement
This statement was prepared on **16 March 2026**.
The assessment was carried out by third parties through objective and subjective analyses (cf. Article 3, paragraph 1, of Commission Implementing Decision (EU) 2018/1523).
